An Overview of the VLG Series: Vampires, Passion, and Power

The VLG series is set in a world where ancient vampires—known as VLG—exist alongside humans. These vampires are not undead in the traditional sense; they are a separate species, incredibly strong, long-lived, and possess heightened senses. They are organized into clans and follow strict rules, but their greatest vulnerability is their instinct to mate and protect. Each book in the series focuses on a different couple, with the hero typically being a powerful VLG male and the heroine being a human or another supernatural being who challenges him.

The series includes titles such as:

- **VLG: The Professor**
- **VLG: The Doctor**
- **VLG: The Lawyer**
- **VLG: The Hunter**

- **VLG: The Prisoner**

Each story stands alone, but together they build a cohesive world with recurring characters and overarching conflicts. Dohner excels at creating alpha heroes who are dominant yet vulnerable when it comes to their fated mates. The heroines are equally strong, often stubborn, and capable of standing up to these powerful vampires. The romance is central, but there is also plenty of action, political intrigue, and danger to keep the plot moving.
