Released in 1972, the song became an instant hit, reaching number one on the Billboard Hot 100. Its lyrics speak of overcoming adversity, with lines like "I can see clearly now, the rain is gone" and "Gonna be a bright, bright, sunshiny day." The song gained a second wave of massive popularity in 1993 when it was featured prominently in the film *Cool Runnings*, the heartwarming comedy about the Jamaican bobsled team. Rhythm and Tempo

The song has a distinct reggae backbeat, often felt as a gentle "skank" on the offbeats. In sheet music, this is usually notated in 4/4 time with a moderate tempo. Advanced arrangements might include syncopated rhythms in the left hand to mimic the reggae guitar strumming. For those playing from a vocal score, the rhythms are written to match the natural phrasing of Johnny Nash's vocal performance, which is both relaxed and precise.

you can follow.

4. **Use the sustain pedal:** A gentle use of the sustain pedal can help blend the chords together and give the piece a more professional, flowing sound. Be careful not to over-pedal, as it can make the music sound muddy.

For Guitarists

2. **Master the strumming pattern:** The reggae "skank" is characterized by a light upstroke on the offbeats. If you are playing with a pick, try muting the strings slightly with your palm and strumming only the high strings on the "and" counts (2 and 4).
3. **Fingerpicking option:** For a softer, more contemplative version, you can fingerpick the chords. The sheet music for guitar might include tablature below the standard notation, making
